Zirconia HT+ Multilayer

PEACE COUNTRY DENTAL STUDIO
Ceramic Dental Laboratory Since 2004

ARGEN Z HT+ MULTILAYER

TRANSLUCENCY
45%

STRENGTH
1250 MPa

19 SHADES
16 VITA Classical
+ 3 Bleach

7 THICKNESSES
12, 14, 16, 18,
20, 25, 30mm

DIAMETER
98mm

T *ime*
E *fficiency*
S *trength*
T *rust*

More sizes, accurate shades, incredible strength.

ArgenZ HT+ Multilayer pairs our proprietary layer blending technology with the strength and consistent shade match of our proven high translucent plus material. The seamless blend of this homogenous 4Y zirconia allows you to create large cases that mirror the natural gradient of dentin and enamel without visible layer lines or nesting challenges. Suitable choice for single units to full arch restorations.

Unmatched Strength and Esthetics

ArgenZHT+ Multilayer's highly esthetic layer distribution mirrors the natural gradient of dentin and enamel while providing unmatched strength.

- Homogenous 4Y blend
- 1250 MPa
- 45% translucency
- Ideal for long span bridges and full arch cases

ARGEN Z HT+

ARGEN Z ST MULTILAYER

Natural Shade Gradient

ArgenZ ST Multilayer is super translucentthroughout the unitand featuresproprietary layingblendingthat creates a seamless and natural shade transition.

- Homogenous 5Y blend
- 850 MPa
- 50% translucency
- Superior choice for esthetic zone cases
- Comparable to lithium disilicate
